

Use of Social Media: Facebook and Code of Conduct Policy

Overview

This policy sets expectations for Department of Education and Early Childhood Development employees, contractors and volunteers who engage with social media on a private, professional, and official basis. It is the Department's policy to use social media where appropriate to support Victorians to build prosperous, socially engaged, happy and healthy lives.

Definition

Social media is the term used for internet based tools for sharing information and ideas. It refers to user-generated information, opinion and other content shared and discussed over open digital networks. Social media includes, but is not limited to:

- Social networking sites (e.g. Facebook, LinkedIn)
- Micro-blogging (e.g. Twitter) and instant messaging (e.g. Lync)
- Video and photo sharing websites (e.g. YouTube, Instagram)
- Blogs, wikis, forums, discussion boards and groups
- Vod and podcasting
- Geospatial tagging (e.g. Foursquare).

Rationale

This policy and code of conduct has been created to guide the implementation of the Facebook site for Warrnambool West Primary School. The purpose of the Facebook page is to ensure that with the platforms of Compass and Seesaw, they serve the role in strengthening the school community and enhance the wellbeing and connectedness of all community members in a positive and united way. The policy has been developed to define appropriate terms of use by parents and staff.

The Facebook page is a public, promotional and celebratory 'real time' platform:

- Photos of events, excursions, activities
- Achievements
- Awards and acknowledgements
- Updates

Intention

The intention of this policy is to establish a culture of openness, trust and accountability for departmental social media activities.

1. To ensure that DET and legislative requirements in relation to social networking and in particular, Facebook, are adhered to and that all users and moderators of the Warrnambool West Primary School page are aware of these policies.
2. That all Facebook users and moderators are aware of appropriate usage guidelines and steps that will be taken to deal with inappropriate use.
3. To mitigate the risk of civil or criminal legal action and damage to Warrnambool West Primary School reputation.
4. To ensure the smooth and successful running of the Warrnambool West Primary School Facebook page and to promote Warrnambool West Primary School as a best practice model of technological innovation and wider school community engagement.
5. This policy applies to the private, professional, classroom, and official use of social media by employees of the Department, Victorian Government school councils, departmental statutory authorities, contractors and volunteers, in schools, regions, and central offices.

Guidelines

Interacting

- Users will be able to comment on the school's postings and on comments by other users. Users will be able to 'like' a post or comment by clicking on the like button.
- Users will not be able to author a posting of their own or load media such as photos or videos unless they have administrative rights
- Administrators will include Warrnambool West staff as appointed by the Principal and Assistant Principal and will be reviewed annually.

Students should be supervised if viewing our Facebook Page and expect that community conduct on our Facebook Page will serve as a good role model for our students as to how to behave in social media spaces.

Raising Issues

- Warrnambool West Primary School is happy to be alerted about issues regarding its Facebook Page but does wish to remind the community that some things are best dealt with privately.
- Issues involving any students, staff or other members of the community MUST NOT be communicated via Facebook.

We will not support any interactions that incite or contribute to overly negative sentiments. We also ask that you do not use the names of any student, staff or community member in any posting in reference to concerns. We reserve the right to block access by anyone who abuses our trust.

Types of use

The lines between work and personal life can become blurred for people working in the public sector since obligations under existing legislation and codes of conduct extend beyond the hours of work.

Private use refers to social media activity undertaken as a private citizen, normally using a profile linked to a personal email address. When making a comment in a private capacity, people covered by this policy must ensure that their comments are not perceived to be an official comment and do not compromise their capacity to perform their public sector role.

Professional use covers those activities and comments made on social media platforms for a professional purpose. For instance, a school based activity on Facebook to support information sharing across the school community. Typically the school's Facebook page would be linked to the school's Edumail account.

Official use refers specifically to those activities undertaken by central and regional staff and others covered by this policy authorised to make comment made on behalf of the Department. These comments would typically be made via public-facing departmental social media sites such as the official twitter account, @deecd.

Official use does not include comments made by employees of government schools on behalf of their school.
